

Title

...COLLEGE INFORMATION CHATBOT USING PYTHON.....

❖ OBJECTIVE

The main objective of this project is to develop a chatbot that provides information about a college such as courses, admission process, facilities, placements, contact details, and other student-related queries.

❖ INTRODUCTION

This project is a rule-based chatbot developed using Python. It interacts with users and provides predefined responses to college-related questions.

❖ SOFTWARE REQUIREMENTS

- Python 3.x
- VS Code / IDLE
- Windows Operating System

❖ FEATURES

- College Information
- Course Details
- Admission Process
- Placement Information
- Faculty Information
- Hostel Information
- Library Information
- Scholarship Information
- Contact Details
- Exit Option

❖ ALGORITHM

Step 1: Start the program.

Step 2: Display "Welcome to College Information Chatbot".

Step 3: Initialize a counter variable count = 0.

Step 4: Start an infinite loop using while True.

Step 5: Increment the counter by 1.

Step 6: Accept user input and convert it to lowercase.

Step 7: Compare the user input with predefined keywords.

Step 8: If the input matches a valid query, display the corresponding college information.

Step 9: If the input matches an exit command (bye, exit, quit, etc.), display a thank you message and terminate the loop.

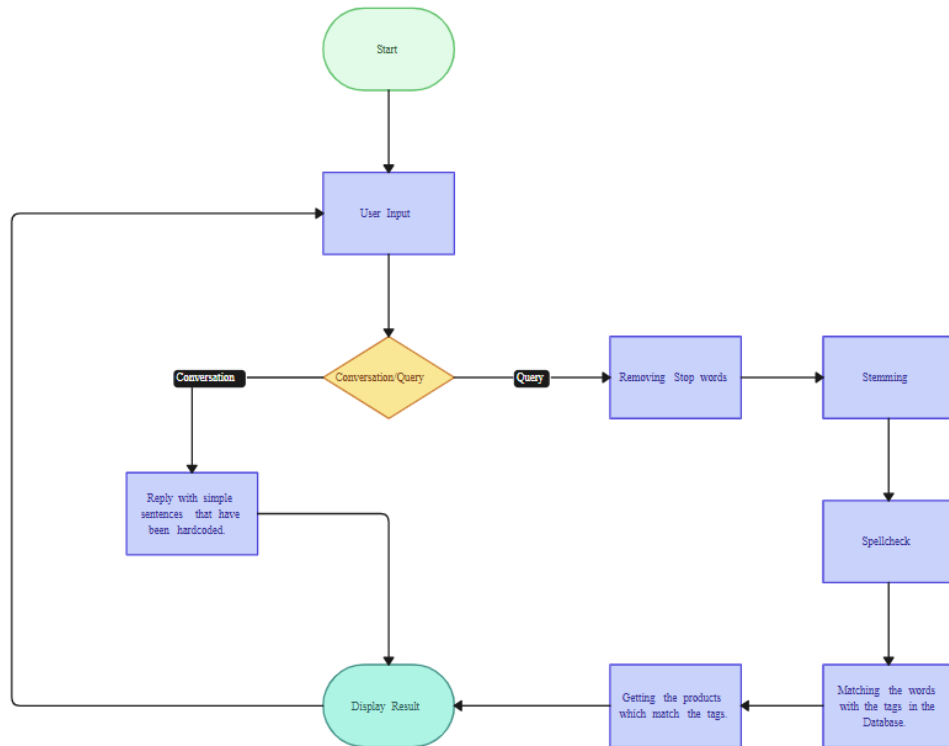

Step 10: If the input does not match any predefined query, display "Sorry, I don't understand."

Step 11: Repeat Steps 5 to 10 until the user exits.

Step 12: Display the total number of questions asked.

Step 13: End the program.

❖ FLOWCHART

❖ SOURCE CODE

```
print("Welcome to College Information Chatbot")

count = 0

while True:

    count += 1

    user = input("You: ").lower()

    if user in ["hello", "hi", "hey"]:
        print("Bot: Hello Student!")

    elif user in [ "tell me about the college", "college
name", "college", "about college", "college information", "information about
college", "college details", "details about college", "college info"]:
        print("BOT: college name is zeal education society .\nIt is located in
Pune, Maharashtra, India. It was established in 2005 and offers
undergraduate and postgraduate courses in various fields of
engineering, management, and computer applications. The college has a
strong focus on research and innovation, with state-of-the-art facilities
and experienced faculty members.")

    elif user in ["courses", "course", "courses offered", "offered courses"]:
```

```
print("Bot: We offer courses in Computer Science, Information  
Technology, and Electronics, Mechanical Engineering, Civil Engineering,  
and Business Administration, Artificial Intelligence and Machine Learning  
And many more.")
```

```
elif user in ["admission process", "admission", "how to  
apply", "application process"]:
```

```
print("Bot: To apply for admission, you can visit our official website  
and fill out the online application form. You will need to provide your  
academic transcripts, entrance exam scores (if applicable), and other  
relevant documents. The admission process may also include an  
interview or entrance exam, depending on the course you are applying  
for.")
```

```
elif user in ["contact information", "contact", "contact details", "how to  
contact", "contact us"]:
